How to Calculate Tuition

Select the classes each member of the family wants to take and add the total number of minutes for all dancers. **Examples:** If you have one dancer taking two classes for a total of 1 hour and 30 minutes you will go to 1.50 hours under Class Hours Per Family and look at the pricing column and see tuition is \$107 per payment. Families with multiple dancers will receive a 10% discount on the tuition for each additional child (the discount will be applied to the dancer taking the fewest amount of class hours).

Example: Child 1 is taking two 60 minute classes (\$135)

Child 2 is taking one 45 minute class (\$65)

A discount of \$6.50 will be applied to the second child's monthly tuition.
